Subject: Freight Forwarding

Frontier Supply Chain Solutions Inc. (Frontier) is a North American supply chain company. We are able to create solutions and introduce programs that benefit our client's needs because we take the time to understand their business. Our priority is to:

- Provide safe, timely, and professional overseas transportation of Brandt products
- Be available to answer questions and listen to concerns
- Work with Brandt to form best practices and efficient SOP's
- Offer tracking visibility using integrated data from our steamship/rail providers

As an experienced international freight forwarding provider, Frontier has established relationships with many of the top steamship, trucking, and railroad companies across the globe. Our agents in Australia and New Zealand are well equipped, knowledgeable, and familiar with handling agricultural equipment. As one of our clients, Brandt can be rest assured of the safe, on time delivery of your product.

We take pride in our customer service, multi faceted offerings and most importantly developing relationships that build trust, establish communication, and minimize error. Choosing a transportation provider is an important choice that requires an assessment of many things: accessibility, technology, service and performance. The ideal firm will continuously communicate with you, provide valuable insights, and best understand your business needs today and in the future. We believe we are that provider.

Please do not hesitate to contact me at (306) 500-0762 Ext. 1 if you have any questions. On behalf of Frontier, we look forward to working with you.

Sincerely,

John Trumpy
Business Development Manager
