

FRONTIER'S CANADA-SHIP

CANADA-SHIP is a simple way to ship your products into Canada. The program is a full-service solution with the following benefits:

“All you have to do is get your product to our U.S. based warehouse and we will handle your cross-border shipments from there.”

REDUCED COSTS

Our **Consolidation methods** dramatically reduce transport costs & customs brokerage fees by clearing customs as one shipment.

IMPROVED TRANSIT TIMES

Using **overnight routes, Frontier's team drivers & zone skipping** methods; our delivery from Chicago to Canada is the fastest option from the U.S. Midwest.

COST TRANSPARENCY

Built in landed cost gives a more complete picture to your customers of what they can expect.

ARRIVAL TIME TRANSPARENCY

Our **online tracking** is used throughout the products entire journey, so you know exactly where your product is.

HOW IT WORKS

When the shipments arrive in Itasca, the package's tracking data is entered and visible on our website

Your product is then transported overnight from Itasca to our Canadian induction centres (Winnipeg, MB & Toronto, ON).

From here, the product will be then shipped directly to the Canadian receiver.
