

# Canada Freight & Courier

Frontier's freight & courier service provides fast, affordable delivery to anywhere in Canada with our network of local owner operations and service providers.

At Frontier, an account representative will serve as a single dedicated point of contact. Our experts understand that business is more efficient when communication is direct.

Trusting Frontier's services will ensure your customers experience fewer missed deliveries with personalized appointments and online tracking options. We also provide custom shipping schedules and zone skipping for faster, more cost effective results.

## Freight & Courier

We understand the importance of your packages, that's why Frontier is offering fast, reliable and dependable courier service for all your deliveries. To support the demands of our clients, we have built an extensive transportation network all over Canada. You can count on Frontier for all your logistics needs, we will always work as your business partner to provide you with quality service.

## WEBship

WEBship is Frontier's free shipping application, is available to all clients, and provides access to all of our services including mail, parcel, and LTL shipments into both Canada and the United States. Receive accurate and instant shipping rates, real time order tracking from origin to destination and automatically generated shipping labels for convenience and peace of mind.

## Simple Returns

Recover lost value, increase customer loyalty, and reduce costs with Frontier's Simple Returns policy. Providing unsatisfied customers with pre-authorized return labels and international invoices while protecting your company against unqualified returns are just a couple of ways Frontier looks out for your customers and your business.

## Automated Invoices

Frontier's recently updated Automated Invoice system is the most reliable way to receive and review all your payables and shipment data. Invoices and important information will be communicated on a daily to monthly schedule containing information on the shipment. This ecofriendly option saves on paper, data entry and eliminates the delay of mailing and receiving hard copies.

## Total Distribution

Frontier prides themselves on providing clients with the ability to choose personalized Total Distribution solutions that keep them ahead of the game and on budget. Reliable transportation, secure warehouses and a frequently updated, transparent inventory management system makes Frontier the first choice shipper in Canada.
