

## Acordex QR Codes

Scan the QR codes below with your tablet camera to conveniently download and install the acordex android apps.

### Mobile Dispatch

### Mobile Photo

Cannot generate the QR code for Mobile Photo app download because Mobile Photo is not enabled.

## Documentation

Follow the steps below to scan the QR code to download and install the apps.

1. Open the camera app in your android device.
2. Make sure the camera app is in photo mode and point the camera to one of the QR codes.
3. Once the camera detects the QR code, it will pop-up a dialog with the app download URL and the tappable "Show Options" text.
4. Tap the "Show Options" text then tap "Open in browser" option.
5. The browser will open the app download URL and prompt you whether you want to save the app installation file. Tap the "OK" button.
6. Once downloaded, tap "Open" then tap "Install" to begin the app installation.
7. Once the app is installed, tap "Open" to launch the app, or "Done" to skip.
